- Free your staff to concentrate on core business challenges with consistent, well-defined Oracle Premier Support services, helping you manage and resolve issues quickly and efficiently
- Save time and money when you reduce IT and management complexity with a single point of service accountability
- Run your business technology confidently with secure, dependable support
- Protect your data and help maintain data availability

Oracle Exalogic is the world's first and only integrated cloud machine—hardware and software engineered together to provide the best foundation for cloud computing. You need a complete, integrated support service that matches this standard and keeps your systems delivering for your business.

Support from the Industry Leader

With Oracle, you get unparalleled expert support when you need it at a global scale for your Oracle Exalogic systems. Through Oracle Premier Support and Oracle Premier Support for Systems we seamlessly deliver the best level of support and provide the following:

Oracle Premier Support	
Complete solution coverage	Comprehensive support from Oracle is essential to your success, and you'll get full coverage of your Exalogic Elastic Cloud software, and Oracle WebLogic Suite software, along with the server and storage hardware, integrated software (such as firmware), and the Oracle Linux and Solaris 11 Express operating systems. Support of any additional licensed Oracle software that you add is priced separately but is delivered as a single service solution.
Unlimited, 24/7 access to Oracle specialists	Our specialized Oracle Exalogic Enterprise Support Team experts are ready to help 24/7, so you can be sure of one point of expertise that provides fast answers and proven solutions, leveraging the experience of our experts in each of the technologies.
Award-winning hardware service	If hardware service is required, local service engineers are ready to respond 24 hours a day, 365 days a year. Oracle provides onsite hardware service for your Oracle Exalogic server and storage hardware within two hours ¹ .
Essential product updates	Updates for integrated software (such as firmware) and covered software provide access to critical security patches, bug fixes, feature enhancements, and even any new releases that become available while you maintain support coverage.
Proactive capabilities	Embedded hardware diagnostic capabilities provide "phone home" automated service requests, and configuration details enable targeted proactive advice. Includes a powerful collection of tools and personalized technical resources, proactive systems management and access to industry expert and peer expertise.
Customer Implementation Manager	Assigned to you for the first 90 days following installation, this key resource ensures you get the best out of Oracle Support for the long term and that service requests are prioritized and progressed during this initial period.

Additional Lifecycle Services

When you select Oracle Premier Support, you also have the option to augment your support coverage through these additional Oracle Customer Services offerings:

Additional Lifecycle Services	
Oracle Exalogic Start-Up Pack	<p>By utilizing the integrated services and personalized expertise from the Oracle Exalogic Start-Up Pack, you can ensure the ongoing system stability and extreme performance expected of your technology—right from the start. Each pack includes the following services:</p> <p>Oracle Exalogic Start-up Advisory Service Assessments and recommendations incorporating best practices</p> <p>Oracle Exalogic Production Readiness Technical reviews, project management, and a single point of contact for escalations</p> <p>Oracle Exalogic Installation Proven, standardized system installation</p> <p>Oracle Exalogic Configuration Configuration of network, cluster, Exalogic storage and database software, including performance and functionality validation</p> <p>Oracle Exalogic Quarterly Patch Deployment Proactive, quarterly patch bundles</p>
Mission Critical Support Services for Oracle Exalogic	<p>With our most comprehensive support offerings from Advanced Customer Services, Solution Support Center includes dedicated access to Oracle experts for customers who choose to manage their system technology themselves.</p> <p>Depending on your level of engagement, custom service features include escalation management through a Service Delivery Manager, prioritized service requests, a dedicated hotline, and performance optimization services.</p> <p>In addition, Oracle Advanced Monitoring and Resolution delivers monitoring and resolution services across the entire IT stack (from servers to applications) that help maximize uptime of mission critical environments and increase the efficiency of your IT.</p>
Oracle Customer Data and Device Retention Service	<p>Global data retention and auditing laws impose significant constraints on data storage security practices. While our engineering and support teams strive to avoid any possible problems, the Oracle Customer Data and Device Retention service enables the secure retention of any nonfunctioning disk drives or flash devices containing sensitive data that need to be removed from the Oracle Exalogic Elastic Cloud system, ensuring you stay in compliance.</p>

Complete Solutions. Complete Confidence. Complete Support.

Oracle Exalogic support offers complete, enterprise-ready services to help you get the most of your Oracle Exalogic system investment and consistently achieve your business objectives. In addition to start-up services and 24x7 global support for both software and hardware, you also get unrivaled technical expertise from our world-class support organization. Oracle Exalogic support services provide a single point of accountability so when you do need help, you can count on consistent, integrated support for your complete Oracle solution.
